

The El Dorado Hills Genealogical Society

Presents

Speaker: Jeane Berry **Working with Autosomal DNA**

March 12, 2019 6:00-7:30PM

El Dorado Hills Library
7455 Silva Valley Parkway, El Dorado Hills

DNA testing for genealogy purposes is a powerful tool that is becoming a main-stream part of the modern genealogist's toolbox. In this presentation, you'll learn about the types of DNA tests, the various testing companies and what the data looks like when you get it back. You'll be introduced to tools on the testing companies' websites as well as third party tools. Jeane has been working on her family genealogy for about thirty years. In the last 10 years she has been exploring and studying the world of DNA for genealogy.

Jeane is experienced with Autosomal results, as well as Mitochondrial and YDNA results.

The El Dorado Hills Genealogical Society invites the public to attend the free presentation in the Community Room at the EDH Library.
